Detail hasil pengisian data pengunjung

Halaman Video dan Musik: multimedia.php

The screenshot shows the phpMyAdmin web interface. The browser address bar indicates the URL is localhost/phpmyadmin/index.php?route=/database/structure&db=db_myprofile. The interface has a top navigation bar with tabs for Servers, SQL, Search, Query, Export, Import, Operations, Privileges, Routines, Events, Triggers, and Designer. The 'Structure' tab is active for the 'db_myprofile' database.

On the left, a sidebar shows a tree of databases. The 'db_myprofile' database is selected and expanded, showing its tables: buku_tamupi, gudang1, hr, information_schema, mysql, performance_schema, pos_db, sys, tanjidor_db, ummi, univ, and uummi.

The main content area shows the 'Structure' view for the 'db_myprofile' database. It includes a 'Filters' section with a text input for 'Containing the word:'. Below this is a table listing the tables in the database:

Table	Action	Rows	Type	Collation	Size	Overhead
buku_tamupi	⌵ Browse ⌵ Structure ⌵ Search ⌵ Insert ⌵ Empty ⌵ Drop	2	InnoDB	utf8mb4_ucs2_1400_ai_ci	16.0 KiB	-
file_tamupi	⌵ Browse ⌵ Structure ⌵ Search ⌵ Insert ⌵ Empty ⌵ Drop	2	InnoDB	utf8mb4_ucs2_1400_ai_ci	32.0 KiB	-
users	⌵ Browse ⌵ Structure ⌵ Search ⌵ Insert ⌵ Empty ⌵ Drop	1	InnoDB	utf8mb4_ucs2_1400_ai_ci	16.0 KiB	-
3 tables	Sum	5	InnoDB	utf8mb4_ucs2_1400_ai_ci	64.0 KiB	0 B

Below the table list, there is a 'Check all' checkbox and a 'With selected:' dropdown menu. At the bottom, there is a 'Print' button and a 'Data dictionary' link. A 'Create new table' button is also visible. Below this button, there is a form to create a new table with fields for 'Table name' and 'Number of columns' (set to 4), and a 'Create' button.

The image shows a web development environment with three main panels:

- File Explorer:** Located on the left, it shows a project structure with folders like 'assets', 'images', 'uploads', and 'cat pictures.jpg'. It also lists files like 'index.php', 'koneksi.php', 'logout.php', 'multimedia.php', 'navbar.php', 'proses_login.php', and 'README.md'.
- Code Editor:** The central panel displays the content of 'index.php'. The code is an HTML document with a Bootstrap 5.3.0 layout. It includes a meta tag for the viewport, a title 'MyProfile', and a link to a Bootstrap CSS file. The main content area is a card with a background image of a cat, a title 'Selamat datang di website ku!', and a paragraph about the user's hobbies. The card is styled with Bootstrap classes and custom CSS for background color, text color, and font weight.
- Terminal:** The bottom panel shows the output of a command prompt. It displays the creation of a mode '100644 uploads/snaptikmusic.mp3', the execution of 'git push -u origin main', and the resulting output of the git push command, including object counting, compression, and pushing to the remote repository.
